

How to prescribe PKU EASY Microtabs

PKU EASY Microtabs are provided in packs containing 4 x 110g bottles (440g total weight)

Finding PKU EASY Microtabs on GP Prescribing Systems

PKU EASY Microtabs will be listed on the prescribing system as either:

- PKU EASY Microtabs (Galen Ltd)*
- PKU EASY Microtabs (POA Pharma Scandinavia AB)*

Prescribing PKU EASY Microtabs

Example prescription written for a PKU patient requiring 60g protein supplementation per day:

PKU EASY Microtabs 6 x 440g packs monthly

They will usually require prescribing in grams on GP prescribing systems

Please note that the amount of protein a patient requires per day is **not** equivalent to the weight of PKU EASY Microtabs required i.e. ~80g protein equivalent of PKU EASY Microtabs weighs 110g

Helpful hint for calculating number of PKU EASY Microtabs packs required

For a prescription, a useful guide is the amount of daily protein required, divided by 10 to give the number of packs required for a month

e.g. 60g protein per day requires \approx 6 x 440g packs for 1 month

Important Notice:

Must only be given to patients with proven PKU under strict medical supervision. Suitable from 8 years of age. Not for use as a sole source of nutrition. Diet must be supplemented with natural protein, water and other nutrients in prescribed quantities to supply phenylalanine, fluid and general nutritional requirements. For enteral use only.

*Both names refer to the same product. POA Pharma Scandinavia AB is a subsidiary of Galen Ltd.
